QUESTIONS,  
BIG  
ANSWERS

*Philosophy for the  
Incurably Curious.*

## *Introduction*

These cards aren't here to give you answers.

They're here to unravel you a little — to challenge  
what you think you know.

Each card holds a question meant to be sat with,  
argued about, or stared at until your brain hurts.  
They're for classrooms, dinner tables, long drives,  
or deep chats with your mates.

There's no score, no right side, and no finish line.  
Just curiosity — the thing that built every idea  
we've ever had.

So pick a card.  
Argue with it.  
Argue with yourself.

And remember: if you leave the conversation more  
confused than you started, you're probably closer  
to the truth.

For the incurably curious.
